I would like to see you all chasing your dreams and realizing them by making use of the college environment to achieve your dreams . If you believe in yourself follow what your teachers say and work to a plan, you can assure that you will meet with success in your chosen goals. I developed self- motivation and discipline along with studies techniques which I can use for rest of my life to choose my career towards industrial exposure . I would like to discuss on **Importance of Regulatory Advocacy** Regulatory advocacy focuses on influencing the development of regulations through a process called rulemaking. Agencies complete significantly more rulemakings than Congress enacts laws, making regulations a powerful force.I wish to express my thanks to all the faculties of Avanathi college who put their sincere efforts to build my career but, you need to believe in yourself and come forward and they will take care of the rest.
